Developing Webpages with R/Shiny

Dr. Garrett Dancik

R (https://cran.r-project.org/)

- *R* is a programming/scripting language commonly used for data analysis and visualization
- *Shiny* is an *R* package for developing dynamic web pages in *R*
  - Shiny gallery: https://shiny.rstudio.com/gallery/
  - Real world examples:
    - https://www.letsrun.com/shoes
    - http://freerangestats.info/blog/2018/05/13/nz-govt-shinyapps
- We will use *swirlstats* to get an overview of R: https://swirlstats.com/students.html
